Terms and Conditions:

Severe complications after childbirth:

- In case of severe complications of the newborn (as decided by the obstetrician and/or neonatologist), such as the newborn requiring a ventilator, newborn expenses will be deducted from the package price and the cost of caring for complications will be charged at the normal rate.
- In case of severe complications of the mother (as decided by the obstetrician), all additional costs will be charged at the normal rate.
- A package is valid only after Thai and foreign patients have completed the package form and it has been signed by the obstetrician prior to the commencement of the service.
- Packages may not be used in conjunction with other promotions/discounts from corporate contracts or insurance companies.
- If the patient can make a claim from his/her company or insurance company, a receipt shall be issued for the total amount without the price breakdown and the patient will be responsible for paying the package cost and submitting the claim to the company or insurance company for reimbursement.

Childbirth Packages Include the Following Costs:

- Mother has any of the following complications during pregnancy:
- Severe preeclampsia or eclampsia
- Other surgical complications during pregnancy, such as appendicitis
- Conditions that require ongoing treatment and are not controllable, such as diabetes, high blood pressure and heart disease

- Severe abnormal bleeding prior to childbirth, such as placenta previa and premature separation of the placenta
- Dead fetus in utero
- Mother has mild and controllable complications, such as mild preeclampsia, gestational diabetes mellitus (GDM) and placenta previa with no severe bleeding
